Michelangelo Merisi da Caravaggio

Caravaggio (1571-1610) was an Italian painter active in Rome, Naples, Malta, and Sicily from the early 1590s to 1610. His paintings combine a realistic observation of the human state, both physical and emotional, with a dramatic use of lighting, which had a formative influence on Baroque painting. Caravaggio employed close physical observation with a dramatic use of chiaroscuro that came to be known as tenebrism.
